1. Overview

The following exam alternatives provide the opportunity for the assessment of musical performance, whereby candidates upload a video file of their performance, rather than attending an examination venue. Performances are assessed by trained LCME examiners, using the same standards and criteria as are used for face-to-face, live exams. This offers candidates a reliable, independent, regulated assessment of their performance standard, while benefitting from the flexibility allowed by the submission process.

2. Entry Details

You don't need to pre-register for a Recorded Exam, Once you are ready to submit files please enter and submit via the LCME website. A link to an upload folder will then be sent to you.

4.1 DipLCM in Performance (Concert)

Performance

100 marks

Candidates compile and perform a 30 to 40 minute recital accompanied by a written programme. Pieces should be chosen from a list of DipLCM pieces on the relevant repertoire list or from the set list for the equivalent level syllabus of another accredited exam board. As part of the recital, candidates may choose one own choice work of a similar standard.

Please note: The whole performance component of the exam must be recorded in a single, uninterrupted take. Please see *Guidelines for Recorded Exams* on the LCME website.

Written programme

Candidates must produce, and bring to the examination, a written programme. This should comprise, for each piece performed:

- the composer
- the date of composition
- a brief description of the music, identifying any distinguishing features

A written programme must be supplied — if this is not uploaded with the exam recording, candidates will not be awarded the diploma until it has been submitted to LCM Examinations.

Performance

Please note: The whole performance component of the exam must be recorded in a single, uninterrupted take. Please see *Guidelines for Recorded Exams* on the LCME website.
