1. Overview

In response to the ongoing COVID-19 pandemic, London College of Music Examinations is offering recorded alternatives in order to assess the work candidates have prepared for the Spring 2020 exam session.

The following exam alternatives provide the opportunity for the assessment of musical performance, whereby candidates upload a video file of their performance, rather than attending an examination venue. Performances are assessed by trained LCME examiners, using the same standards and criteria as are used for face-to-face, live exams. This offers candidates a reliable, independent, regulated assessment of their performance standard, while benefitting from the flexibility allowed by the submission process.

2. Recorded Exam Requirements

2.1. Pre-grade 1

A recorded submission alternative for candidates who have entered for Step exams

Component 1: Technical Work (25 marks)

Candidates play a selection of technical work. Please see the *Technical Work and Discussion Questions* document on the LCME website.

Component 2: Rhythm Study (25 marks)

Candidates perform one rhythm study, chosen from the studies in the LCME handbook.

Component 3: Melodies (50 marks)

Candidates perform two melodies. At least one must be chosen from the melodies contained in the LCME handbook. One of the melodies can be an own choice melody, provided it is of at least similar technical standard and duration to those within the handbook.
