

## Contemporary Musical Theatre Post-2000

LCME Musical Theatre celebrates the musical in the 21<sup>st</sup> century and encourages new writing. As an examining board, we are also aware that these contemporary musicals offer a wide range of vocal and acting skills in terms of performance techniques. At the beginning of our advanced grades in Grade 6, it is appropriate that we start this narrative by providing our performers with a genuine awareness of the musical's influence on our lives and the world of entertainment with opportunities for the classically trained singer to engage with 'cross over' musicals and through-composed musicals that require great strength of character and skills to communicate the narrative.
